

Comments by Stuart H Ralston, during his visit to the institution on 6/2/2015

Centre for Genomic & Experimental Medicine, Western General Hospital
Edinburgh

I was very impressed with the new hospital and also the very enthusiastic students and faculty. I also thank the plans for MD/Ph.D and to increase research are excellent. Good luck to you all for the future in Hamdard Institute.

Prof. Stuart H Ralston

Comments by Brian R Walker, during his visit to the institution on 6/2/2015

Prof. of Endocrinology,
University of Edinburgh and Editor of Davidson's Principles and Practice of Medicine

Many thanks for your hospitality today and for introducing us to vibrant young college where compassion is the watchword, and you are "ahead of the game" in introducing students to patients to inspire them early in their studies.

Prof. Brian R Walker
